Welcome to

GenZBiotech is a premier manufacturer, processor and global supplier of natural botanical ingredients, standardized herbal extracts, pure essential oils, pharmaceutical intermediates, enzymes and functional food ingredients.

With over 1,000 specialized bio-ingredients, we bridge traditional plant science with modern extraction technology, serving the Pharmaceutical, Nutraceutical, Cosmetic, Personal Care, Food & Beverage and Aromatherapy industries worldwide.

We partner directly with sustainable cultivators, primary harvesters and specialized processing units, so every ingredient is traceable from farm to finish, with consistent potency, competitive pricing and on-time delivery.

Every Batch, **Verified.**

Every product is manufactured to meet stringent international pharmacopeial and industry standards, with customized sterilization and microbial-control treatments on request to ensure compliance with global regulatory norms.

- ✓ Certificate of Analysis (CoA) with every batch
- ✓ Independent lab reports on potency, purity and safety
- ✓ Compliance with global regulatory norms

Export-Grade **Packaging**

Internationally approved, food- and pharma-grade packaging protects ingredient stability, aroma and bio-activity during transit and storage.

- ✓ High-Density Polyethylene (HDPE) drums
- ✓ Heavy-duty fibre drums with double food-grade poly liners
- ✓ Epoxy-coated and pure aluminium bottles / canisters
- ✓ Vacuum-sealed and pressed bales for raw botanicals
- ✓ Customized bulk and retail-ready packaging as per buyer and destination-country regulations

Worldwide export.

Reliable, on-time fulfilment to buyers across every major region.

Reaching 88 Countries

Dependable products reach buyers worldwide with unmatched quality and precision. We supply botanical extracts, essential oils, pharmaceutical intermediates and nutraceutical ingredients across every major region.
